

LINEARIS

Electrical linear motion drive / Damper actuator

L N E A N S

Drive head Tensor

- Universal, sturdy industrial design
- Lifetime lubrication, maintenance-free
- Mountable in arbitrary positions
- Short-circuit proof synchronous motor
- Finely adjustable actuating cams
- Numerous options such as additional switch, potentiometer, position indicator, controller, hand wheel etc.
- Control card PMR optional

Specifications

Actuating force	max. 1800 N (higher forces upon request)	
Actuating time	0.7 mm3.3 mm/s (load independent at AC)	
Travel	150/300 mm stroke (other strokes upon request)	
Voltage	Multi current power supply unit 85265 V AC (alternative AC/DC low voltage power supply)	
Ambient temperature	-15 °C+60 °C	
Protection class	IP 65	
Duty cycle	100%	

LABS-free according to Daimler testing standard certified by Fraunhofer Institute.

Drive unit

LINEARIS

Linear unit

- Stainless steel high-helix lead screw Ø18
- Lead 40 mm with optimized efficiency
 - less turns per stroke length
 - long-life motor
 - slow and smooth motor movement
 - low noise and vibration
- Holding torque by self-hold of the actuator
- Separately exchangeable actuator
- High-strength, anodized aluminum milled parts, corrosion resistant and lightweight
- Long holes for fastening, i.e. easy installation
- Maintenance-free by dry-run, no lubrication necessary.
 No dirt deposits on grease (longer life span)
- Embedded (dry) lubricants inside the lead screw nut
- Easily exchangeable with ARIS damper actuators delivered till 2014
- High quality "dryspin® technology". Lead screw and nut made by igus©

Materials linear unit

Bearing support	EN AW 7075
Holder lead screw nut	EN AW 7075
Connecting rod	Steel, galvanized
High-helix lead screw	1.4301
Twist lock	1.4301
Thrust collar	1.4021
Lead screw nut	Up to 2500 N: iglidur® J 25003200 N: Brass nut (CuSn12) with grease nipple
Connecting rod pin	Brass
Stroke limiter	1.4301
Bushings	iglidur ® J
Bolts	Steel, galvanized

NEARIS S

* dryspin® technology high-helix: Higher life span and efficiency

The dryspin® technology is based on wear-resisistant igus® high performance polymers, specially designed for screw drives, dryspin® offers a higher life span and efficiency to high-helixes by their characteristics and geometries, specially matched to the nut and lead screw. By their freedom from lubrication, dryspin® screw drives are suitable for usage in rough industrial just as in clean and hygienic environments (e.g. laboratory automation).

dryspin® lead screw (up to 2500 N)

- Lubricant-free
- High-tech polymer iglidur® J inside aluminum block
- Optimal transmission of the torque by form closure
- Vibration-isolating
- Smooth and steady run

LINEARIS Ex

Damper actuator for explosive atmospheres

Ex II 2G Ex d IIC T6 Gb

- Usable in Ex-Zones 1 and 2
- Appliance categories 2G and 3G
- Flameproof "d"
- Usable at gases with increased flame transmission capacity "C"
- Highest temperature class T6
- For gases with ignition temperature > 85 °C

Ambient temperature	-20 °C+60 °C
Cable entry	1x M20 x 1.5 bzw. 1x M20 x 1.5 + 1x M16x1.5
Housing	Aluminum (painted), Ground plate: steel
Ex protection	Ex II 2G Ex d IIC T6 Gb
Protection class	IP65

Subject to technical changes.

ARIS bridges gaps

You are faced with a problem in your system and are looking for an alternative or new solution?

40 years of experience and expertise in-house. Through newly created capacities our design department is located back at ARIS headquarters in Troisdorf/Germany in 2014. We develop and build high-quality electric actuators that are equipped with contemporary technology. Drives made by ARIS are created in close cooperation of engineers. technicians and the sales team with our clients. So we are able to develop marketable products from scratch and execute to the production stage under one roof. In addition to standard products, we can implement individual solutions for customer projects as well as special drives as OEM goods.

Come to ARIS - Your specialist for modern actuator technology "Made in Germany".
